

*Education for Today.
Research for Tomorrow.*

The mission of the neonatal equipment program is to be the national leader in providing grants for the purchase of ventilator equipment and critical care pulmonary services to hospitals throughout the United States.

If approved as a grantee, the WRI will provide you with a grant that is restricted for the purchase of neonatal ventilator equipment or funding for a specific neonatal pulmonary related program. The grant cannot be used towards a fundraising campaign, unless the campaign is restricted to the neonatal intensive care unit.

DUE DATE FOR APPLICATION: JANUARY 15, 2012

HOSPITAL INFORMATION

Name of Organization: _____

Contact Person: _____

Title: _____

Address: _____

City: _____ *State:* _____ *Zip:* _____

Phone: _____ *Email:* _____

“Just today, one of the nurses remarked to me that the Omnibed has meant a lot to her patients and their families. She told me that ‘...because of the microenvironment created in the Omnibed, the neonates have fewer infections and better tolerated feedings.’ The Will Rogers Institute has been a strong and committed partner in Sinai’s mission to improve the health of the individuals and the communities we serve.”

— Matthew Cohen, Manager, Corporate and Foundation Relations, Sinai Health System

OVERVIEW

Please provide us with a brief overview of your hospital including the following specific areas of interest.

- Organizational Overview:

- If yes, how were those dollars allocated?

- Please explain how this donation will impact the neonatal intensive care unit.

If you would like to include additional information or documentation, please attach and submit with the application form.
